## FIRST AID SUPPORT FOR STUDENTS HEALTH CARE PLANS

Dear Parent / Caregiver

An education/care worker's responsibility in relation to incidents of injury or accident is to provide a basic first aid response. However, when a student has any emergency or routine health condition and/or a personal care support requirement, eg:

- Asthma
- Epilepsy and seizure management ,
- Diabetes,
- Allergic reaction,
- Anaphylaxis (severe, life threatening allergy), or
- is required to take routine medication

A Health Care Plan is required to assist school staff to provide appropriate first aid/health support for your child. A Health Care Plan (Forms are available from the school) should be completed by a health professional and provided to the school.

If your child has a medical condition of which the school should be aware, would you please contact us to discuss and plan the health support required.

Yours sincerely,

Rob Shepherd  
Principal
